14 AUDUBON, JOHN JAMES. THE BIRDS OF AMERICA, FROM ORIGINAL DRAWINGS BY JOHN JAMES AUDUBON; a Popular and Scientific Description of the Birds of the United States and their Territories, embracing Delineations of American Scenery. 8 *vols in* 4, *imperial* 8vo, *half russia. Illustrated by* 350 *beautifully colored figures of Birds, all of the Natural size in Action, together with the Plants and Trees most frequented by them, in one magnificent vol, elephant folio, half russia, extra.* *New York, n. d.*

The former edition of Audubon's "Birds of America" was published in London, and furnished to subscribers at about $1,000 a copy. The cost was so great as to place it beyond the reach of all but the very wealthy; but great as it was, every copy has been sold, and none can now be had, except occasionally a second-hand one, and that generally at above the original price.

This volume was issued under the personal superintendence of his son, the late John W. Audubon, and every plate colored from the original drawings of his father, then in possession of the family, but since purchased by the New York Historical Society. As the distinguished author and his two sons, who were also naturalists and artists, are now dead, there is no probability that this magnificent work will ever be again issued; and, as the number of copies printed is quite small, they will naturally increase in value.

The text is complete in 4 volumes, royal 8vo, being a full description of all the birds of this country; and is of great interest, not only on account of the description of the birds themselves, but also on account of his exciting narratives of personal adventures.

15 AUDUBON, JOHN JAMES. THE BIRDS OF AMERICA, from Drawings made in the United States and their Territories, by John James Audubon. *Illustrated by* 500 *beautiful plates of Birds, all drawn and colored after Nature, and the Plants and Trees most frequented by them*, with Descriptions. 7 *vols. royal* 8vo, *rich turkey morocco, gilt backs, gilt and tooled sides, and gilt edges.*

SUBSCRIBER'S COPY. *New York*, 1840

Very elegant copy of this delightful work, *now scarce.*

16 AUDUBON, JOHN JAMES. THE VIVIPAROUS QUADRUPEDS OF NORTH AMERICA, by John James Audubon and the Rev. John Bachman, D. D., *a series of* 150 *large plates of Quadrupeds all in Action in their Native Haunts, beautifully drawn and colored from Nature*, 3 *vols, atlas folio, half morocco.* *New York*, 1845

Fine copy of this superb work, rarely met with. Original subscribers' copy.

"No general History of Art that has been written in English is at once so entertaining and recondite, so subtle in criticism, so clear in its definitions and descriptions, so sound in its Art theories, and so philosophical in their enunciation. The work will do much to settle the flashy conceits and beliefs of our countrymen about Art, its history and purpose. Of the last, it is gratifying to observe the high range of the authors' vision: they are not merely historians and date collectors, but critics, whose efforts rarely flag, and never fail in interest with the reader." — *Athenæum.*

Duchesne ainé. *A series of splendidly executed line engravings, 4 vols, imperial folio, half morocco.*

Paris: Imprimirie de Jules Didot, 1829–30

"This is unquestionably the greatest production of modern times. It exhibits a series of engravings by the most distinguished Artists, of such a Collection of Paintings, as can never be again united.

The work comprises 320 large plates in the finest style of LINE ENGRAVING, from the most celebrated PAINTINGS AND STATUES in the World, with Descriptions, and very masterly Dissertations in French and English on the state of the Fine Arts in various ages."

"It is possible that a passing apprehension, that the Louvre might not always be allowed to retain the Art Treasures, for which he had laid most of the countries of Europe under contribution for its choicest pieces, led Napoleon to think of forming this splendid series of Line Engravings, the cost of which for engraving alone, exceeded £50,000 sterling. Many of the paintings and sculptures have since been claimed and restored to their rightful owners; and the dispersion of so many choice gems enhances the value of the work which describes them in a collected form."

"We think that Mr. White combines in larger proportion than any other editor with whose labors we are acquainted, those qualifications essential for a perfect editor of Shakspeare. . . . Each play is preceded by an introduction, remarkably well digested and condensed, giving an account of the text, and of the sources from which Shakspeare helped himself to plots or incidents. . . . After such conscientious examination of his work as the importance of it demands, after a painful comparison, note by note, and reading by reading, of his edition with those of Messrs. Knight, Collier and Dyce, our opinion of his ability and fitness for his task has been heightened and confirmed. . . . And we repeat our honest persuasion, that Mr. White has thus far given us the best extant text, while the fulness of his notes give his edition almost the value of a *variorum*." — *James Russell Lowell.*
